

Kenora District Services Board

NEWS RELEASE

NEWS RELEASE

June 2007

The Kenora District Services Board is pleased to advise that it has approved a Best Start Community Plan and the 2007-2008 Child Care Service Plan at its June 28, 2007 Board meeting.

The adoption of these Plans will assist in closing the gaps in child care services and better meet the needs of the communities.

Emergent child care needs such as infant and toddler care will form part of the 2007-2008 strategies as communities move forward with the community vision for the Best Start Program.

One of the more exciting aspects of the plans is the opportunity to work with Aboriginal agencies in the development of opportunities for the Aboriginal children.

These plans will form the 'blueprint' for child care services in the Kenora District and are deemed to be 'living' plans. That is to say they will continue to evolve over time.

For further information contact Dianne Apland, Director
of Ontario Works and Child Care.
