

Kenora District Services Board

PRESS RELEASE

PRESS RELEASE

January 2008

The Board of Directors has accepted the recommendation of its Consultant, ADW Consulting and Pauline Lewis & Associates, to assume direct delivery of the Ontario Works program and services.

The adoption of this recommendation signals the Board's commitment to improving Ontario Works Program management through the adoption of a new business model. A new organizational structure accompanied by a comprehensive set of administrative and Ontario Works policies and procedures will serve to enhance service delivery and organizational and client outcomes.

An implementation plan to support the achievement of these changes is being developed. It is expected that the transition will take several months before fully implemented.
